

Making San Francisco Bay Better

November 19, 2013

Mr. Peter Prows
Briscoe Ivester & Bazel LLP
155 Sansome Street, 7th Floor
San Francisco, California 94104

SUBJECT: BCDC Permit No. 1985.019.09B; Plan Review Response to October 30, 2013 Email and Plan Approval of Revised Signage Plans; Public Pavilion at Jack London Square, Oakland, California

Dear Mr. Prows:

We are writing in response to your October 30, 2013 email and the three revised signage plans that were attached. The plans are entitled "Public Pavilion Regulatory Sign Specifications," are dated October 22, 2013 and were prepared by S. Hanson.

We have reviewed the revised plans pursuant to the authorization and requirements of BCDC Permit No. 1985.019.09B. After careful review, we have determined that the plans are consistent with the authorization and requirements of the BCDC permit and are, therefore, **approved**. Thank you for making the revisions requested in our October 18, 2013 letter.

If you have any questions, please don't hesitate to contact me by phone at (415) 352-3643 or by email at ellenm@bcdC.ca.gov.

Sincerely,

ELLEN MIRAMONTES
Bay Design Analyst
